On December 16, 2022, the Government of Japan released its 2023 tax reform proposals. The amendments contain changes to the rules related to gifts and inheritance tax. The proposals have been promulgated into law and entered into force on April 1.

Significant Tax Increase on Lifetime Gifts

Starting in 2024, the rules for adding lifetime gifts back to estates for inheritance tax purposes will be revised substantially and taxation will be strengthened. Gifts made within 7 years prior to death will be subject to inheritance tax.

Also, in recent years, the methods for obtaining information on overseas assets and levying taxation using information exchange agreements have been strengthened.

Finally, there are an increasing number of cases where trusts set up overseas are subject to inheritance and gift taxes in Japan.

This seminar will provide an easy-tounderstand overview of inheritance and gift taxes for foreign residents in Japan and their families, including an overview of inheritance and gift taxes, issues related to overseas trusts, and how to transfer assets between generations, with case studies as examples.
